

# How it works:

The procedure is painless and can be completed in 15-30 minutes. Each session delivers extremely small amounts of energy to "Bathe your brain" through several small electrodes attached to your scalp.

The most effective and 100% safe way to non-invasively RETRAIN the brain and CNS (central nervous system) to regain your health.

Over time, frozen or stuck patterns are affected and the result is a "reboot" to the system as new neural pathways are made. This creates changes to the brainwave state and greater ability for the brain and nervous system to regulate itself.

CERTIFIED PROVIDER

TECHNOLOGIES

MCN: MICRO CURRENT NEUROFEEDBACK

IASIS Micro Current Neurofeedback is a holistic treatment approach that is:

- FDA registered
- Non-pharmaceutical, drug-free
- Non-invasive
- Safe
- Effective

The source of the problem, not the symptoms, are treated through brief micro current stimulation to the nervous system resulting in temporary fluctuation in brainwaves. This change, or fluctuation, is what allows the brain to reorganize and shift.

If you correct your mind, the rest of your life will fall into place.

# Many Benefits:

Improvements in the following areas have been reported and observed:

- anxiety
- depression
- ADD/ADHD
- anger
- traumatic brain injury
- concussion
- chronic pain
- over stimulated stress response
- headaches/migraine
- insomnia
- eating disorders
- athletic performance
- OCD
- autism
- brain fog
- grief
- panic
- stress
- stroke
- tinnitus
- memory
- dementia
- Parkinson's
- addiction

## Science + Success

Studies have shown:

- High levels of delta waves associated with:
  - Anxiety, depression, PTSD, and other neuro-disorders
- Micro Current Neurofeedback can:
  - Reduce/eliminate high levels of delta waves

85% of Patients report:

- better sleep, feeling calm
- reduced headache, pain
- less brain fog, mental clarity
- reduced impulsivity
- improved mood
- better able to handle stressors

### Changes in as little as 1-3 sessions!

## Brain Gauge

Brain Gauge is a cognitive assessment tool that uses touch-based sensory testing to measure your brain health. It's the quickest and most accurate way to track improvements to your mental fitness.

### 01. Your First Session

- Plan for 45 minutes for a more comprehensive exam
- Brain gauge testing will be done to achieve a baseline
- Dress comfy and relaxed
- Pull hair away from face
- Avoid makeup on the forehead
- Complete an e-form 24 hours after treatment to eval changes

### Sessions 2+

### 02.

- Plan for 15-30 minutes
- Same rules apply as the first session
- Keep track of your changes and complete 24 h eval form

### IASIS MCN PRICES

**Initial & individual Session: \$150**

**Package of 10: \$1250 (\$125 each session)**  
2-3x per week x 3 weeks, then 1x per week x3 weeks, then every other week x3 weeks and monthly. (this is an example schedule)

**Package of 20: \$2340 (\$117 each session)**  
2-3x per week x 3 weeks, then 1x per week x3 weeks, then every other week x3 weeks and monthly

**Family Package of 40: \$4000 (\$100 each session)**

All immediate family can use sessions
